EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard H. Anderson on 9/27/05.

The application has been amended as follows:

IN THE CLAIMS

In claim 1, line 1 after "water barrier", insert --, in a shape of a rod or rope, having a length to width ratio of at least 10, --.

In claim 1, line 2 after "flow", insert a comma.

In claim 2, line 2, delete "c oated c ontinuously" and substitute thereof --coated continuously--.

In claim 11, line 1, delete "b arrier" and substitute thereof --barrier --.

In claim 11, line 1, delete "t he s mectite"" and substitute thereof -- the smectite --.

In claim 27, line 1, delete "15" and substitute thereof --24 --.

2. The following is an examiner's statement of reasons for allowance:

Art Unit: 1713

Various prior art, such as US4,534,926, US5,552,469, US6,417,262, US6,486,254 and US6,610,793, teach extruded compositions, some water-swellaable and some with high moisture barriers, contained sometimes intercalated clay.

However, none of the prior art was found to teach or sufficiently suggest the claimed water barriers in the shape of a rod or rope, having a length to width ratio of at least 10, comprising a co-extruded composition of a water-penetrable coating layer over an underlining core of a flexible, water-impermeable, clay-containing composition, said coating layer having a predetermined water-penetration rate to allow for wetting of the coating layer during installation without hydrating the underlying clay, and said water barrier being adapted to be secured to an area of potential water flow.

Thus, claims 1-15 to the water barrier and claims 16-27 to the method of preparing the water barrier are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Kelechi C. Egwim whose telephone number is (571) 272-1099. The examiner can normally be reached on M-T (7:30-6:00).
